Degree in mechatronics 2012 - 2017

IPSIA Birago

Professional institute with mechanical specialization focused on internal combustion engine vehicle repair

## ABOUT ME

UX/UI Designer with strong front-end development foundation. After years in the automotive industry, I pursued my true passion: creating functional and engaging interfaces that translate user needs into intuitive visual solutions. Proficient with Figma, Adobe Suite, Git, and VS Code

I stand out for my autonomy, fast learning, and passion for turning ideas into real interfaces, even through code.
